

PRODUCT ADVANTAGES

- CONTINUOUS WELDING ELECTRODES 3.2 mm
- Electric arc welding equipment for all kinds of coated electrodes.
- Super professional duty cycle: 100% with 40°C air
- Includes all the accesories needed to easily start welding.
- Ready for special TIG welding with tungsten electrodes in an inert atmosphere.
- Best suited for light and medium tasks like maintenance, construction and DIY.
- Unmatched features on it's price range: 120A at 100%, vacuum voltage =60Vdc.
- Includes a professional cooling system with thermal stability and maximum performance on its range.
- Easy welding, even for inexperienced users, thanks to the intelligent STAYER WELDING control including Hot Start, Arc Force & Anti Stick to improve the initial arcing, increase the welding stability while avoiding the electrode sticking due to improper use.
- Ready for safe use with stabilized generators.
- Solid construction according to the european regulations 2011/65/EU, 2014/35/EU, 2014/30/EU e IEC 60974.
- Max power density: the lightest equipment on it's category: only 2.5 Kg.

STANDARD EQUIPMENT

- Power cable. 2m x 1.5 mm²
- Ground cable with clamps. 1.5m x 10 mm²
- Electrode cable. 1.5m x 10 mm²
- Hammer with brush
- Carry case

All accessories available in our catalogue.

DATA SHEET

Power (Amps) (A, X=100%)	120 V
Generator	3 - 5 KVA
Duty cycle	100% 30° AIR %
Electrode	3.2 mm
Supply	230 V
Dimensions	23,5 x 15,5 x 9 cm
Weight	1.9 Kg
